Process with Purpose

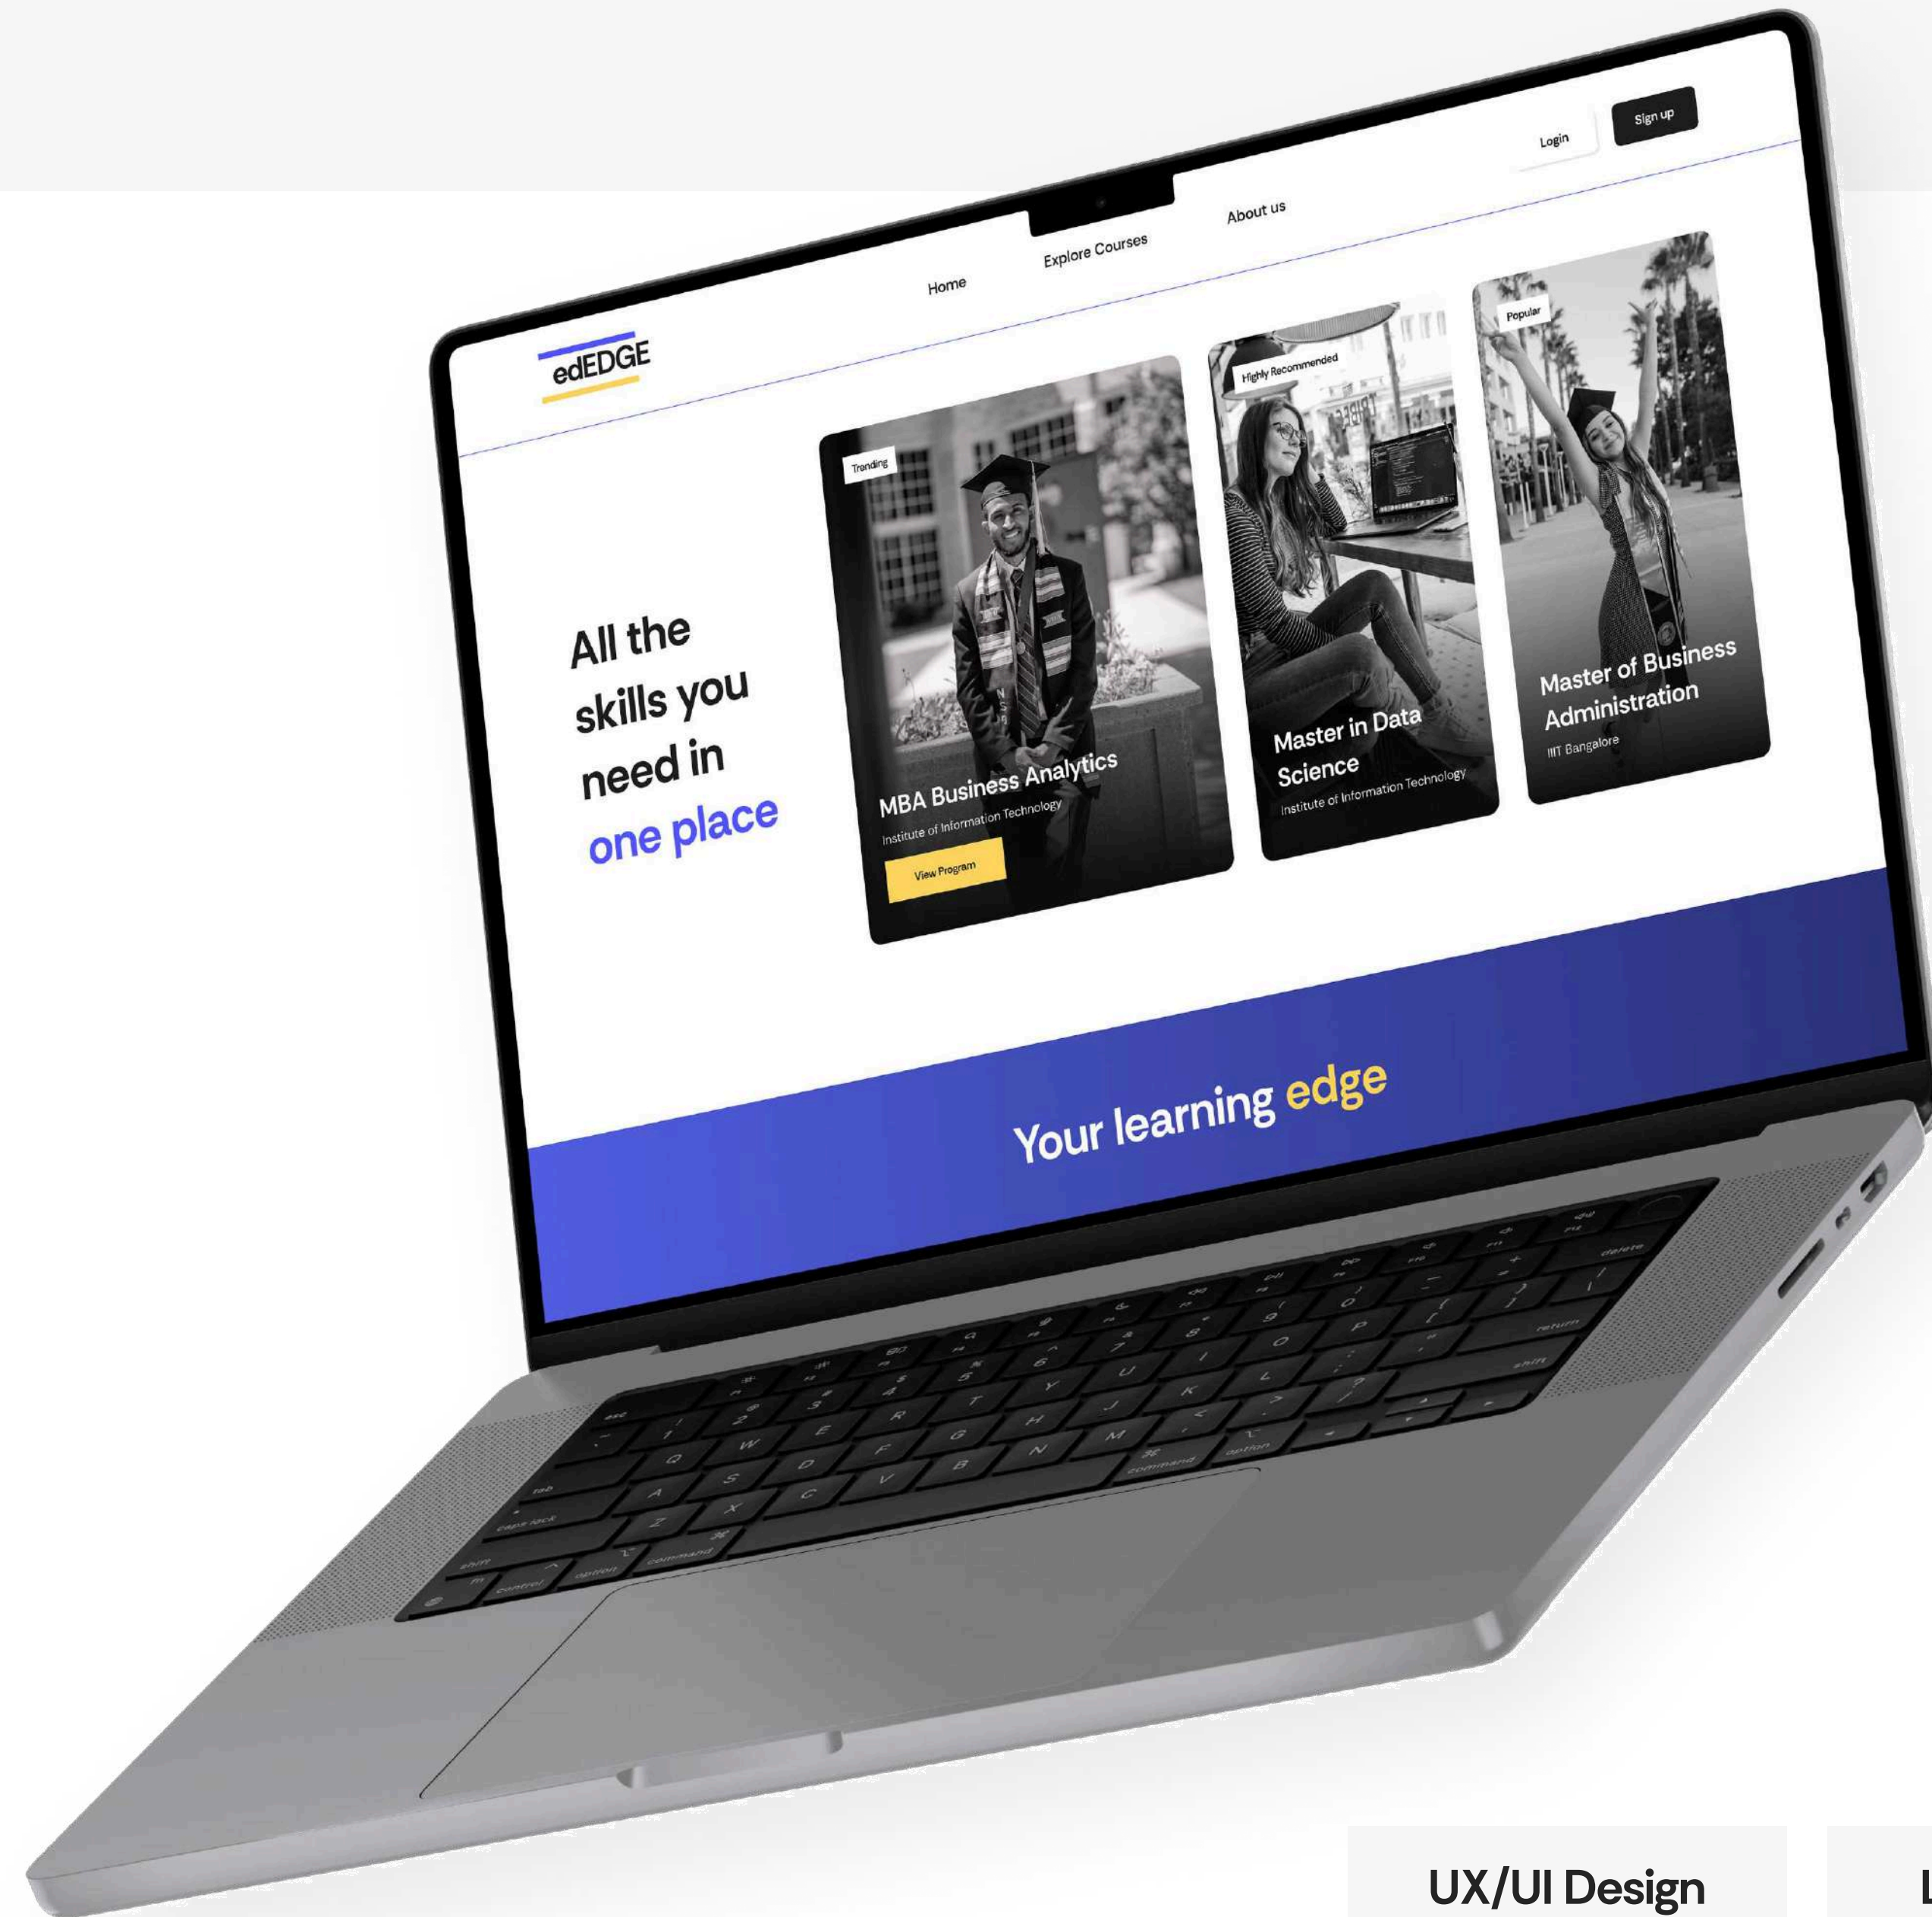

Project Name: **edEdge**

Industry: **Education**

edEdge is an education platform offering diverse courses in technology, marketing, finance, and more, tailored for modern learners. The challenge was to design a user-friendly experience that seamlessly connects learners with the courses they need while embodying the brand's innovative spirit.

I created a clean, intuitive UX/UI design that enhances accessibility and engagement across devices. Paired with a sleek, dynamic logo, the design captures the essence of edEdge's mission to empower learners and set a bold, professional tone for their brand identity.

Project Name: **Lavish Lustre**
Industry: **Beauty & Cosmetics**

Lavish Lustre is a beauty and cosmetics brand dedicated to offering premium products that enhance every moment of self-care. The brand needed an online presence that reflects its luxurious essence while providing a seamless shopping experience for its customers.

I designed and developed a sophisticated eCommerce store that combines elegance with functionality. With an intuitive layout, vibrant visuals, and smooth navigation, the store not only captures the brand's identity but also ensures a delightful shopping journey for beauty enthusiasts.

Project Name: **Pulse Hospitals**

Industry: **Health Care**

Pulse Hospitals, a leading healthcare provider, needed a website that reflects its commitment to compassionate care and advanced medical services. The goal was to create a platform that is both informative and easy to navigate for patients seeking quality healthcare.

I designed a clean, user-centric website with intuitive navigation and an approachable aesthetic. The design ensures quick access to essential information like services, departments, and appointment booking, offering a seamless digital experience that complements the hospital's patient-first approach.
